Ignition Plan

Draw and write ignition plan and add as attachment to fire plan

Escaped Fire Plan

1. If fire escapes all ignition stops until escape is contained, unless needed to control the fire
2. Use standard fire suppression methods to control escaped fire
3. If fire cannot be contained by standard methods other tactics will be used (i.e. backfires)
4. If other methods do not work or are not practical **ONLY** the Incident Commander or designated person will call for assistance

1. Please Include a Map of Your Planned Fire Area

2. Use A Go-NoGo Checklist On the Day of the Fire (Available on the CPPFE website)
